## Description

**New construction** of one building for two class rooms to extend capacity of pupils. Msakila secondary school is an eye-catching school in Rukwa region and outside the region, that is why there is an increase of students from 400 (2023/2024) to 702 students today (02.10 2025). The increase of students is not without some challenges and one of the challenges is the lack of more class rooms to accommodate all the students at once. See details in attached file.
